Even more choice coming soon

Mambourin Green will introduce even more schools, on top of all those already available. With so much on offer and all close to home, you'll easily be able to find the right school for your family.

Proposed Kindergarten and Primary Schools

Mambourin Green will be home to a proposed Kindergarten and Government Prep-Year 6 school. The Victorian Government has already provided Laa Yulta Primary School and Kindergarten at Mambourin, and this will add to the public school offering.

In addition, a proposed non-government Prep-Year 6 school will also be located close to the government schools, expanding options for local families.

Proposed Government Secondary School

It is also proposed to have a Government Year 7-Year 12 Secondary School. This will also be in Mambourin Green and is part of the Victorian Government's commitment to promoting public education in growing suburbs.

Frasers Property has been building stronger, smarter, happier neighbourhoods since 1924. Our commitment extends to the school communities we have created over the years. When you make your home in Mambourin or Mambourin Green, you are giving your children the chance to develop friendships, knowledge, skills and connections that will serve them well in life. The future is looking bright.
